Contact: Chris Zellers - zellersc@gtps.k12.nj.us

Work ph. 609-748-1250 x 5104 or cell 207-217-0176

We would love to have you present at our 12th annual *Mr. B's Nature Fest*. Our students research a topic to present regarding our local environment, flora or fauna. We, also, invite local organizations to present. The organizations set up in the field adjacent to *Mr. B's Backyard Classroom*. On the day of the *Nature Fest*, students in K-8th grades from *Reeds Road Elementary, Roland Rogers, Smithville & Galloway Township Middle School* and adult guests rotate around to the tables of the students and organizations to learn facts about their local environment from 9:00-2:00. Nearly 2,000 students and adults will visit the projects (not every visitor will get to every table). You can visit *Mr. B's Backyard Classroom* website to see more information about our program and outdoor area.
